

Ambrosia Bee Feed Paste

Product Specification | PS 237325-1.1EN
Valid from: March 23, 2018

SAP QM no: 23
Page 1 / 2

Description

Ambrosia Bee Feed Paste is produced based on sugar and glucose syrup.

It is a white to yellowish paste of sound and marketable quality without off-odours.

The product is of sound, good quality complying with legal requirements.

Ambrosia Bee Feed Paste is a feedstuff dedicated to bees.

It is especially recommended to use the product to bridge gaps in nectar supply and for early and late winter feeding.

Compliance

The product is in compliance with the European food and feed legislation.

Especially according to the latest effective amendments as published by the European Commission (c.f. <http://eur-lex.europa.eu/>)

Regulation (EC) No 178/2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety

Regulation (EC) 767/2009 on the placing on the market and use of feed

The product does not contain or consist of GMOs and is not produced from or contain ingredients produced from GMOs as defined in Regulations (EC) No 1829/2003 and 1830/2003.

The product has not been irradiated.

During production substances of animal origin have not been used.

Storage conditions

Shelf life, when stored according to recommendations:

..... 24 months

Storage conditions should be dry avoiding direct exposure to direct sunlight and temperature changes.

After packaging has been opened, product has to be used without delay.

Whilst care is taken to ensure accuracy, legal liability is excluded to the extent permitted by applicable legislation. Due to unavoidable uncertainty in sampling and analytical results, deviations from specified data might occur occasionally. This specification is valid without any signature and it may be updated without prior notice.

Ingredients

Sugar
Glucose syrup
Invert sugar syrup

Labelling legal name

Legal name:

Complete feed bee feed paste

Declaration:

Composition: Sugar (sucrose), glucose syrup, invert sugar syrup

Crude protein: 0 %

Crude fibres: 0 %

Crude oils and fats: 0 %

Crude ash: 0 %

Total sugars (as sucrose): 84 %

Physical chemical

Dry matter	90.2-91.2 %
Sucrose ¹	77.5-78.5 %
Glucose ¹	6.5-7.5 %
Fructose ¹	4.5-5.5 %
Maltose ¹	1.2-2.2 %
Maltooligosaccharides ¹	7.8-8.8 %
Colour in solution (420 nm)	max 25 IU
Hydroxymethylfurfural	max 25 mg/kg

¹ on dry matter

Microbiology

Total plate count	max 150 CFU/10g
Yeasts	max 10 CFU/10g
Moulds	max 10 CFU/10g
